👤 Profile

Nashville-native, former English teacher, electrician, homebuilder, and real estate agent, who retrained at Vanderbilt University's first Full Stack Coding Bootcamp. Specializes in JavaScript (jQuery & MERN stack) and UI/UX design, with additional skill in Sass, HTML/CSS, Google Cloud Platform, and Heroku. Seeking a junior developer position at a web application firm locally.

💼 Work experience

Assistant Construction Manager
08/2012 – present
AE Construction, Inc, Nashville

- Directed construction of 32 projects, everything from 5000+ sq ft custom new construction to simple ranch-style home kitchen renovations
- High-dollar custom projects demanded an exacting level of attention to detail and persistence to complete on schedule and within budget
- Very familiar with the project process and working to eliminate productivity bottlenecks

Affiliate Broker
09/2016 – present
Zeitlin Sotheby's International Realty, Nashville

- Coordinated the marketing and sale of 9 properties as in-house realtor for AE Construction

Assistant Language Teacher
08/2010 – 07/2012
Kochi Prefecture Board of Education, Shimanto City, Japan

- Via the Japan Exchange and Teaching Program, assisted Japanese English teachers in lesson-planning and cultural exchange activities
- Taught 10 classes per week (6 of which were planned/taught by me alone) to middle and high school students in rural Japan
- Traveled extensively around Asia

🎖 Certificates

Google Cloud Developer
06/2019
