SUMMARY

Full Stack Junior Web Developer with experience in UI design and a dedication to constant improvement. Knows what it takes to take a project from initiation to completion, with a background in residential construction and real estate. Effective at combining creativity and problem-solving to develop user-friendly applications. Seeking locally-based agency position.

TECHNICAL SKILLS

Languages: JavaScript, React, Node, Express, MongoDB, MySQL, Handlebars
Applications: VSCode, Postman, MySQL Workbench, GitKraken

PROJECTS

RenoMaybe | github.com/JASEpstein/RenoMaybe | renomaybe.herokuapp.com
- Tells you the estimated value of your home, the financial return on a number of specific renovations you could perform, and the updated value of your home post renovation
- Completely self-designed and constructed
- Authentication using MongoDB, Express, React/Redux for front-end, Axios for API calls

U-Hike | github.com/JASEpstein/UHike | jasepstein.github.io/UHike
- Using an API for hiking trail data, graphically maps user location with GoogleMaps and allows users to search for different hiking trails near them, and filter by several criteria
- My role: project concept + UI design, GoogleMaps API integration
- Simple GET requests using Axios transposed onto an interactive GoogleMap, site design using Semantic UI

EXPERIENCE

Assistant Construction Manager / Real Estate Agent   2012 – 2019
AE Construction, Inc.   Nashville, TN

- Directed construction of 32 projects, everything from 5000+ sq ft custom new construction to simple ranch-style home kitchen renovations
- High-dollar custom projects demanded an exacting level of attention to detail and persistence to complete on schedule and within budget

EDUCATION

Bootcamp Certificate: Vanderbilt University, Full Stack Flex Program
A 24-week intensive, Full Stack JavaScript-based program, learning React, JQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handelbars.js

Degree: Belmont University, Nashville, TN (BBA, 2009)
